

Many will reject this message. "...there shall come in the last days scoffers, walking after their own lusts," (2 Peter 3:3). They scoff at the fact that Jesus is coming soon, and they scoff at the fact that the world was once judged by water – and this in spite of all the fossil evidence we see of Noah's Flood. And the Bible says that the present world will be judged again – not by water this time, but by fire (2 Peter 3:4-7). "...the heavens shall pass away with a great noise, and the elements shall melt with fervent heat, the earth also and the works that are therein shall be burned up." (2 Peter 3:10-12). The Evolutionists are wrong. There was no Big Bang in the past – the Big Bang is coming!

God has given us his promise that he will return – this world will be judged, and there will be a new heavens and a new earth. And there is only one way to be ready... "The Lord is not slack concerning his promise, as some men count slackness; but is longsuffering to us-ward, not willing that any should perish, but that all should come to repentance." (2 Peter 3:9). God has demonstrated his love for us on the cross – now he calls us to repent of our sins and trust in him. "Nevertheless we, according to his promise, look for new heavens and a new earth, wherein dwelleth righteousness" (2 Peter 3:13).

The Big Bang is coming!

- ☛ If the Big Bang was fact, and all the planets of the solar system were hurled out from the sun (which is 98% hydrogen/helium), why do the first few planets contain less than 1% hydrogen/helium?
- ☛ If the Big Bang was fact, how did the earth end up in *precisely* the right orbit to sustain life? (If it were 5% closer to the sun, the oceans would boil; if it were 1% further away, they would freeze)
- ☛ If the Big Bang was fact, all the planets of the solar system would have spun off the same way, why do Venus and Pluto rotate backwards? Why does Uranus rotate on its side? Why do six moons in the solar system have backward spins? Why do Neptune, Saturn and Jupiter have moons orbiting in both directions?

Why do six moons in the solar system have backward spins? Why do Neptune, Saturn and Jupiter have moons orbiting in both directions?

In the beginning there was nothing and then it exploded – or so the Evolutionists would have us believe. They seriously expect us to believe that the mind-boggling complexities of the universe are the result of chance random processes occurring over billions of years. However, even a small child knows that an explosion causes DISORDER, not order! (The Big Bang theory actually violates the 2nd Law of Thermodynamics, which states that systems tend towards disorder).

How then can we account for the incredible design of the universe? How can we account for the biological complexities of life itself? The answer is simple – “*In the beginning God created the heaven and the earth.*” (Genesis 1:1). The truth is, the *design* we see in the universe (in everything from planetary orbits to the specified complexity of DNA) points to an intelligent *Designer*, however uncomfortable that may be for some.

The Big Bang theory is NOT science – it is a BELIEF about the past held by fallible human beings who were not there in the beginning and whose opinions change from one day to the next. The Bible, by contrast, gives a scientifically accurate account of the origin of the universe by One who was there at the beginning, who is infallible and whose Word never changes – it teaches that the earth is round (Isaiah 40:22) and suspended in empty space (Job 26:7); that God stretches out the universe (Isaiah 40:22) and that the universe is gradually winding down (Psalm 102:25-26); that space and time had a definite beginning (Genesis 1:1; 2 Timothy 1:8-9); etc.

The Bible says that God created the universe in six literal days (Exodus 20:8-11), and that *everything* God made was “*good*” and “*very good*” (Genesis 1:4-31). There was NO sin, NO death, NO suffering, NO disease. There were NO millions of years of Evolution – Jesus said that Adam and Eve were there “*at the beginning of creation*” (Mark 10:6). And it was ONLY through their disobedience that God’s perfect creation was corrupted (Genesis 3). “*-- as by one man sin entered into the world, and death by sin;:...*” (Romans 5:12). The close friendship they had enjoyed with God was broken.

What did God do about this? He offered them *hope* and *forgiveness* through a future Saviour who would bear the punishment for their sin (Genesis 3:15, 21). And He *protected* them from being forever confirmed in their sinful state (Genesis 3:22-24).

Why is all of this so important? Because, like Adam’s children, we all inherit a sinful nature (Genesis 5:3) – “*Behold, I was shapen in iniquity; and in sin did my mother conceive me.*” (Psalm 51:5); “*...all have sinned and come short of the glory of God...*” (Romans 3:23); “*Who can say, 'I have made my heart clean; I am pure from my sin?'*” (Proverbs 20:9). We are born in a lost condition, separated from God, and therefore need to be reconciled to God through the sacrifice of his Son, Jesus Christ. How can we be reconciled? By repenting of our sin and trusting in Jesus as our Savior, accepting that HE took the punishment for OUR sin: “*For Christ also hath once suffered for sins, the just for the unjust, that he might bring us to God*” (1 Peter 3:18).
